

SEMI-WEEKLY INTERIOR JOURNAL.

VOL. XXI.

STANFORD, KY., FRIDAY, MAY 19, 1893.

NO. 23

WILLIAMSBURG, WHITLEY COUNTY.

—Rev. Thomas, of Mt. Ash, will preach at the Methodist church next Sunday.

—The Gatlinian Literary Society will give an open session at the court house Friday night.

—Elder James E. Terry will be here next Sunday to begin his work as regular pastor of the Christian church for the remainder of this year.

—Mrs. Nick Daniels is quite sick this week. Ed Gatlin, the little son of Dr. A. Gatlin, has been very sick with pneumonia, but is improving. W. B. Myers spent last Sunday with his father's family, at Woodbine. Meers, M. A. Moore and Will Jones were in Middlesboro last week.

—H. H. Tye is in Cincinnati this week. Miss Flora Hugely, of Richmond, who has been visiting her brother, Mr. E. M. Hugely, for several weeks, returned home Tuesday. On last Saturday evening 12 couples of Miss Carrie Myers' young friends gave her a pleasant surprise.

—Before this letter is read by the public Mr. J. C. Mahan, one of our popular young merchants, and Miss Belle Arthur, daughter of E. F. Arthur, will have been united in the bonds of matrimony. They will be married Thursday morning at the bride's father's and will take the 8 o'clock train for Louisville.

—Judge John Smith, Mrs. C. W. Lester, Mrs. W. M. Blain and Dennis Watkins left last Sunday morning for Warm Springs, N. C. Judge J. W. Alcorn, of Stanford, John B. Fish, of Pineville, J. R. Sampson, of Middlesboro, J. R. Rogers, of Knoxville, Meers, Dishman and Rawlings, of Barbourville, and N. A. Richardson, of Louisville, are among the visiting attorneys since our last.

—Circuit Court has been progressing nicely and a great deal of business disposed of. Baker, for the murder of Logan at Corbin last August, not guilty; Howard Woods, for cutting Conductor Douglass who was attempting to remove him from cars, four years; J. W. Hubbard, charged with forgery, not guilty; Paxton and McGraw cases continued and most of the remainder of the time will be spent in civil business.

BROOKHEAD.

—Woodyard & Cherry have the frame of their new store house up.

—Henry Mitchell was arrested Tuesday by Deputy Sheriff Cummins, charged with unlawfully selling whisky.

—John Frith has been sworn in as assistant P. M. at this place and the girls seem to be happy to know that they can get to see John when they get their mail.

—Bro. Pike filled his appointments at the Baptist church last Saturday and Sunday nights. He preached at Oak Hill church on Sunday morning at 11 o'clock.

—Mrs. G. W. Tharp has been confined to her room for several days from the effects of a fall. Dr. P. Benton has been on the sick list for a few days, but is convalescent.

—H. C. Elliott, a railroad man who lives in Henderson county, is at Brookhead this week working about 40 men, extending the side track. Mr. Elliott seems to be a gentleman and understands his business.

—Miss Iva Painter is visiting Mrs. Mary Colyer and Mrs. Mattie Carter this week. Dan Holman, of Crab Orchard, was here Tuesday. He and A. J. Pike exchanged horses and he went home happy.

—J. G. Frith, our magistrate, was called to Squire Elders' to try James Cash, who was charged with stealing a hoe. The testimony warranted his being held over till circuit court, and being unable to give a \$250 bond, he was sent to jail.

Bidding For a Call.

Sam Jones hasn't been in Stanford, much, no doubt, to Stanford's credit and delight, but old man Walton has left the mourners' bench and is in the amen corner—at least he is if the following is to be taken in dead sober earnest as it appears in the INTERIOR JOURNAL:

"Blakely, of the Newport Journal, refers to this paper as 'that excellent prohibition sheet,' while others speak of it as a religious publication. Both are right. Henceforth the INTERIOR JOURNAL will be a prohibition, religious institution. We have given the devil the best years of our life by dishing up political matter for the delectation of him and his satellites and like many another old sinner, we now at the 11th hour seek to flee from the wrath to come."

The conversion of the old man makes the second in ten days which the Journal man has made—old man Walton from his unrighteousness and Ford from his unconstitutionalities. If Stanford, or even Louisville, will build him a tabernacle and give him the same rates paid Sam Jones, \$2,000 per week, he will guarantee, on the strength of the two converts he has landed, to sweep the towns; giving Sam Jones cards and spades in everything but his blackguardism—for in that Sam is without a master.

—Newport Journal.

—The wife of Rev. J. E. Clough was killed by a folding bed at Chicago.

LANCASER, GARRARD COUNTY.

—Mort Rothwell and Teddy Pascoe have been putting in the week fishing at Dillon's Switch.

—The meetings at the Presbyterian church closed Tuesday night with 30 additions to the membership.

—Ed Lawson has resigned as deputy sheriff and left for Indiana to engage in the mercantile business. Mr. Will A. Arnold has been appointed to fill the vacancy.

—It now seems settled that we will have a fair this summer. Some of Garrard's prominent stockmen have gone to work in earnest and a meeting will be held in a short while to form a permanent organization.

—Half a dozen or more colored boys went to Crab Orchard this week to wait on the tables at the Springs Hotel which is under the management of that excellent gentleman, Mr. Gus Hofmann.

—After the services at the Presbyterian church Sunday night, Miss Lena Bright, of Hubbell, was taken suddenly ill and fainted in the door. She was taken to the residence of Mrs. D. M. Lackey, where she now lies in a critical condition.

—The crossing on Miller's Hotel corner is a splendid trap to get some one crippled, especially when the street lamps are not lighted. While returning from church one night this week a lady stepped into one of the deep drains next to the pavement and was severely bruised.

—Not much talk on the local option question is heard now, as all are awaiting the decision of Judge Saufley as to the constitutionality of the law.

As stated before in this column, the case will be heard to-morrow, Saturday, at Harrodsburg, where Judge Saufley is holding court.

—Mrs. Josie Boner, of Camp Nelson, visited relatives in town this week. Miss Belle Walker is the guest of Miss Lizzie Walker, on Danville street. Mrs. Mollie Young, of Dallas, Texas, is visiting her parents, Capt. and Mrs. F. J. White. Jim Cunningham has gone to Louisville to engage in business. Miss Sallie Elkin has returned from Chicago.

—There seems to be no end to the agencies and contrivances that are springing up all over the country by which men are seeking to make something out of nothing. Chicago seems to be headquarters of a number of agencies of this kind, though other cities in the North are not far behind in this disreputable business. Circulars are sent out to lawyers, notifying them that if they will send \$5 to an agency they will be allowed to serve as attorneys in any cases that may be sent to them. This seems fair, and is quite a concession upon the part of the agency to allow an attorney to practice his profession and receive compensation therefor upon paying to them a reasonable portion of his fees. It is very much like the man in Frankfort, who employed a number of hands to catch drift wood in the Kentucky river and gave them half they could catch.

—It is singular that any country that is constantly boasting of its civilization is at the same time expending untold millions in preparing for war. If civilization consists in devising ways and means whereby the greatest amount of human slaughter can be had in a given time, possibly it would be in order to parade before the public the immensity of the preparations that had been made for this peculiar kind of civilization. The building of a large number of ships of war at a time when our country is at peace with all the world and when there is not the slightest probability of their being needed, is made the occasion of an immense amount of bluster and brag, for which there is no excuse. The latest improvement in the way of preparation for war is the bullet proof uniform. The so-called cloth is made of successive layers of compressed hemp, compressed cotton, corset steels, etc. Armies clad in this uniform can pound away at each other for days and weeks at a time and the list of killed and wounded will amount to nothing. No surgeons will be needed and ambulances can be dispensed with. No pensions will be granted for gunshot wounds. It will give nerve and backbone to would-be duelists, and now any politician who wants to achieve a little notoriety as a man of courage can send a challenge with impunity to any opponent who has called him a liar, or accused him of lying or stealing. So much for the advance of civilization and the progress of the age.

—It is reported that President M. H. Smith, of the L. & N., is negotiating for the purchase of the N. N. & M. V.

—Harry Hill, another society man of Atlanta, has gone wrong. He forged notes on Mrs. Porter, the wife of a bank president, for large sums, and lit out for Mexico, when a relative of hers started to hunt him with a shot gun.

—Among the Kentucky post-office changes are the following: J. H. Gedgel, Alton, Anderson county; A. G. Winstott, High Bridge, Jessamine county; G. B. Vaughan, Jamestown, Russell county, and W. W. Davis, McAfee, Mercer county.

LIBERTY.

—Misses Bettie Burke and Mary Coffey passed through town Tuesday en route to Danville. Miss LuLu Page, after remaining in our midst for months, returned to her home in Columbia on the 16th. Miss Page is a good looking and accomplished young lady, and while here made many friends. Her presence will be missed in the social circle. Dr. Beazley is again in our midst, and is operating on the molars and incisors of Cass's citizens.

—Rev. J. H. Bristow, from near Gilpin, was brought before Judge Myers on last Saturday and tried before a jury of his peers, charged with a breach of the peace. After carefully testing the weight of the evidence on both sides, the jury decided that there was nothing in the case and he was acquitted. As it appears that the person has been active in procuring the indictment of traveling whisky venders, it is supposed that prejudice against him for this is at the bottom of the prosecution.

—It was hoped after the terrible affair on Casey's Creek a few weeks since that it would be long before such an occurrence would again take place in this country, but late Monday evening a worse case took place near Gilpin's Store, on Trace Fork, that of one brother killing another. The only information of the particulars of the fratricide as yet comes from the one who did the killing, as he came after the doctor last night. Logan Brown states that yesterday evening, while he and some others were drinking, his brother, Lacy Brown, commenced firing at him with a pistol; that he, in order to stop Lacy from shooting at him, fired twice in the direction of his brother, and that the third time he drew trigger, the remaining barrels of his pistol went off together with fatal effect. Lacy Brown lingered until Tuesday evening when he died. Human life is becoming remarkably uncertain in some sections. A warrant has been issued for the apprehension of Logan Brown.

—Mrs. Josie Boner, of Camp Nelson, visited relatives in town this week. Miss Belle Walker is the guest of Miss Lizzie Walker, on Danville street. Mrs. Mollie Young, of Dallas, Texas, is visiting her parents, Capt. and Mrs. F. J. White. Jim Cunningham has gone to Louisville to engage in business. Miss Sallie Elkin has returned from Chicago.

—There seems to be no end to the agencies and contrivances that are springing up all over the country by which men are seeking to make something out of nothing. Chicago seems to be headquarters of a number of agencies of this kind, though other cities in the North are not far behind in this disreputable business. Circulars are sent out to lawyers, notifying them that if they will send \$5 to an agency they will be allowed to serve as attorneys in any cases that may be sent to them. This seems fair, and is quite a concession upon the part of the agency to allow an attorney to practice his profession and receive compensation therefor upon paying to them a reasonable portion of his fees. It is very much like the man in Frankfort, who employed a number of hands to catch drift wood in the Kentucky river and gave them half they could catch.

—An entertainment at the Baptist church Friday night will close the present session of Janie Wash Institute.

—J. M. Durham is doing a land office business in wool. He has bought over 40,000 pounds.

—It rains from 3 to 5 days out of each week and the prospects for farming are rather gloomy.

—An entertainment at the Baptist church Friday night will close the present session of Janie Wash Institute.

—Rev. J. H. Bristow and Geo. Elliston, of the Gilpin vicinity, had an alteration one day last week, in which Bristow came out second best.

—Rev. W. M. Vines, of the Baptist Theological Seminary at Louisville, who has been preaching for the church here, preached two very able discourses Sunday morning and night. The church has secured his services as pastor for half his time till September. He has been called to preach for the Junction City Baptist church, which with this will make up his field of labor.

—E. S. Fisher has a turkey hen which he says sets on the nest an hour or more every day and has done so for at least six weeks and he has never yet gotten a single egg from her, while his neighbor, Willis Coulter, has one which in that time has laid 60 eggs. Spears does not pretend to accuse Willis of stealing his eggs; on the contrary, believes him to be strictly honest; though he intimates that it is a little strange that Willis' turkey produces so many eggs, while his produces none.

—FARM AND TRADE ITEMS.

—The anti-pool bill was killed in the Kentucky House.

—I am still buying wool and hope to see all persons who have it to sell on Monday next. Remember I will pay the highest market price. I. M. Bruce.

—ENTRAY.—Two ewes and 3 lambs came to my place April 28. Owner can get them by paying for advertisement and pasture. S. W. Givens, Shelby City.

—There is talk of repeating the Brooklyn Handicap at \$500 a corner, great dissatisfaction being expressed by turfmen at the result of Monday's race, won by Diablo.

—The rich Brooklyn Handicap, worth \$18,000 to the winner, \$5,000 to the second horse and \$2,000 to the third, was won at Gravesend by Diablo, a "rank outsider," against whose chances the odds opened at 60 to 1. Lamplighter, the favorite, was second, alined beyond Leonawell, third. There were 107 bookmakers on the ground and they couldn't take the money fast enough.

—Meacham McCord, a well-known young man of Christian county, got drunk and wandered out to the railroad track. Train came along and he will never know what killed him.

—Sucklin's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapping, hands, chilblains, corns and all skin eruptions. It positively cures all skin diseases.

It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per box.

For sale by A. H. Penny, Stanford, Ky.

The I. J. Man Moving for Money in the Mountains and Making It.

Fearing that the Hon. Font F. Bobbitt left a few things unsaid about Williamsburg and Whitley county when he was attending court here a few months ago, I inflict upon our readers the following few jottings as a supplement to his several interesting productions.

Not a great many changes have taken place in Williamsburg since I was here last, but it must be said that the town is holding its own remarkably well. The lumber industry has been a great help in building up Whitley's capital and as long as the lumber holds out she will continue to grow, but were it not for this business, it puzzles me to know what would become of the town. There is no other industry and manufacturing seems to be the last thought in the minds of the good people. The merchants display some energy in their stores, but aside from this, there is apparently no other business going on.

From the number of doctors Williamsburg has, one would at once conclude that either the town or the surrounding country is in a fearful condition from a health standpoint. I counted eight physicians' shingles and wasn't hunting for them either.

Circuit Court is in session, with a fairly heavy docket, but up to date only one party has been sent up. Howard Woods,

a negro, is the unfortunate and was given four years in the pen for stabbing

Conductor J. B. Douglas, an account of which appeared in our paper some time ago. A large number of attorneys are in attendance and with Williamsburg's full quota, the rostrum is full well nigh to overflowing. Judge Alcorn, of Stan-

ford, is among them.

The post-office business is not creating as much interest here as in a great many towns.

It is generally conceded that Editor Green Denham, of the Times, will be the successful man and both Drs. Blain and Atkins have withdrawn their petitions in the gallant editor's favor.

The old game of croquet has been revived at Williamsburg and it is now having a big sway. Gray-headed business men indulge in it and "roqueting and croqueting" is heard all the day long.

One of the principal streets has been converted into a play ground and the spectators that watch the games can be counted by the hundreds. Quoits is also a popular game and many of the sportive youths, middle-aged and bald-heads while away their time at that sport.

Jellico is still ranked with the "unrighteous towns," but nobody has been killed for a month. In fact, the lawlessness there has been checked considerably and it is said that Chief of Police Trammel is to be given the principal credit for it. He is a wide awake officer and as fearless as our own "Brother" Newland.

The population of Jellico is now reckoned at 800 to 1,000 and it is rapidly building up. The fire of some time ago swept out of existence a number of good buildings and several bar-rooms, but the buildings have almost all been replaced, while 12 groggeries still flourish like green bay trees.

The calaboose is in the most conspicuous part of the town and woe be unto the unfortunate who gets into it. A low, flat building with only one window and as dark as the ace of spades, it is far from being a pleasant place even to sober up in.

Jellico is showing her good sense in plowing up the platted "addition" and putting it in corn. The London & New York Co. had the streets all laid out and had begun to grade, but the boom stopped, hence the change—a corn crop for the "addition."

E. C. W.

WHY HE SUCCEEDS.—The reason why Dr. Appleman succeeds is because he is a true specialist—he selected a line of diseases and made their study and practice his life work and has thereby become more proficient in their treatment than the bed-side practitioner. The field of medicine is too extensive for man to hope to master it in all its details. Dr. Appleman realized this and has devoted his medical life to special practice. He is eminently fitted and has a record here of which he may well proud. Call upon the doctor at the Myers House next Tuesday and have a talk with him. It will cost you nothing and he may be able to give you advice that will do you much good.

On the occasion of the Knights of Pythias celebration, to be held at Wilmore, Ky., May 30, the Queen and Crescent and Louisville Southern Rail road will sell tickets from all stations in Kentucky at one fare for the round-trip, selling May 30 and making tickets good to return until May 31. The chief attractions will be a street parade, prize drill, barbecue dinner, etc. For further information call on agents or address D. G. Edwards, G. P. A., Cincinnati, O.

—THE DOUGLASS OR BUELL SHOES.

They are strictly first-class. Bed Sets, Lace Curtains, &c. In fact we can sell you any thing you ask for. Come one and all and get prices and if we do not sell you we will do you good by giving you pointers. Always.

WEERE

Will I find such and such an article? Is a question that you often hear asked. To

ANSWER

Many of them for you we give a partial list of

WHAT : WE : KEEP.

DRESS GOODS.—Wool Dress Goods in all the new shades and weaves; China Silks, Challies, French Ginghams, Satteens, Organ-dies, Dotted Swiss, Plain

HILTON'S HACKNEYS.

Rich Men Are Improving the Live Stock of America.

Ex-Judge Hilton of A. T. Stewart fame has gone into the live stock and farming business in New York near Saratoga. He has bought out 25 or 30 of the old time farmers and thrown their places into one great estate of 1,500 acres. He has purchased and imported some of the finest stock of all kinds and put the animals on his farm for use and show. Like so many other wealthy men in the past few years, Judge Hilton is especially taken with the hackney horse and will breed this family extensively, endeavoring at the same time to engraft the blood on the native farm equines of the vicinity.

HACKNEY MARE MISS HELEN.

A correspondent of the New York Tribune visited the Hilton farm, "Woodlawn," recently and is enthusiastic about the hackneys there. We reproduce part of the letter, with pictures of the hackney stallion Acrobat and the hackney mare Miss Helen.

Of Acrobat The Tribune writer says: "The stallion Acrobat is certainly a remarkable animal, and the bitterest opponent of hackney blood cannot fail to admire his superb form and brilliant action. He is among the latest of Judge Hilton's acquisitions. Mr. Bloodgood purchased him a year ago at Naples, Cambridgeshire, England, where he was foaled in 1888. He had been shown as a 3-year-old in London, taking fourth prize in a large field of competitors. In this country he took first prize at every horse show in which he appeared—Philadelphia, Poughkeepsie, Danbury, Albany and Syracuse—except the national show in Madison Square Garden, when the second honor was accorded him, Berserker winning first prize in class 26, 14.3 hands and under 15.2, 3 years old or over.

HACKNEY STALLION ACROBAT.

"Acrobat's pedigree shows that he has in his veins the finest hackney strains. His sire Canavasser was by old Confidence, conceded to be the greatest hackney stallion that ever lived, and Acrobat's stock producing qualities prove him to be worthy on this point, as on others of his famous progenitor. His record in England and this country demonstrates this fact conclusively. Of 30 mares served by him previous to his importation, 28 proved to be with foal, and only 2 of the 35 served by him in this country failed. In appearance he is singularly attractive. His color is mahogany bay. He has a white star in the forehead and black points save one white hind heel. His head is small, well shaped and with great breadth between the eyes. His neck is beautifully arched. His great depth of shoulders, short, powerful back, broad loins, heavy quarters, flat hind, unblemished legs and perfect feet make him a worthy subject of the brush."

Feeding Straw to Horses.

The feeding of straw to horses during the winter is a very common practice, and while oat straw in good condition can be safely used as a substitute for hay in times of scarcity the use of wheat straw is to be avoided. Straw of any kind contains a large percentage of indigestible matter, and in wheat straw this percentage is so large that it frequently causes attacks of colic and obstinate constipation. Horses fed on straw should also get a good supply of bran mash or boiled feed to counteract the constipating tendency of the straw. Musty feed of any kind is an abomination and a frequent cause of disease.—Nor'west Farmer.

Half Guinea, Half Chicken.

The strangest specimen of poultry I have ever seen was from a road in Marshall county, Ills., many years ago. I saw in a barnyard a very queer looking, light, stately, blue and white colored fowl, about the size of a medium sized turkey hen and with much of the carriage and shape of one, with quite a prominent crest, but with a short head and bill. It so interested me that I stopped to inquire about it, but found no one at home except a little girl, who said it was "half guinea hen and half chicken."—D. B. Weir in Rural New Yorker.

The Dorset Horn Sheep.

As has already been stated, the introduction of Dorset horn sheep into the United States commenced properly in 1887—just six years ago. There are known to be 88 herds of pure bred Dorsets in this country today, distributed over 16 states. This prolific breed is now before the people, and it is not the intention at this time to point out their many good qualities or to discuss the prospect of their rapid introduction.

CRIBBING IS UNSOUNDNESS.

A Horse That Is Persistent Cribber Is Diseased.

In its healthy and quiescent state it would be impossible for a horse to take air into the mouth and pass it down the esophagus into the stomach and bowels, but in the act of cribbing the natural position and health functions of the jaws, palate, epiglottis, esophagus and the muscles concerned in this peculiar act are exercised in an abnormal way.

It is shown a physiological derangement of all those parts in the act of cribbing. Hence we find the horse swallowing air enough to distend to a great degree the stomach and bowels, which is a fact that is indisputable and known to every person that has been unfortunate enough to get into his hands a horse that was a confirmed cribber.

There are as many grades of severity in the disease of cribbing as there are of inflammation of the brain, of the lungs, of the stomach or any other organ of the body. This difference in the severity of the disease accounts for the small quantity of air that some cribbers are enabled to swallow. It is not sufficient to distend the bowels beyond a healthy condition. A mild case like this would lead a person unacquainted with the disease and the effects thereof to suppose that he did not take in the air at all. Yet he does, but not enough to disturb the normal condition of the stomach and bowels so as to be noticed by a casual observer.

It has been remarked that cribbing horses are lank and lean, yet have bulky abdomens containing gas. Now, if this gas was not taken in the act of cribbing, but was the result of primary indigestion, that could be removed and his bulky abdomen brought to its proper size and his lank and lean condition greatly improved, but these improvements cannot be made with the cribbing horse because you cannot remove the cause, which is a nervous longing, a mental desire that is gratified in the act of cribbing. By this abnormal condition of the brain and nervous system the digestive organs are not supplied with their due amount of nervous influence.

This of itself is sufficient to produce a lank and lean dyspeptic horse, in which the food would not be digested and converted into chyme, chyle and blood for the renovation of the system, but in addition to that there is so much air swallowed in the act of cribbing to gratify this mental disease as to exclude the possibility of a healthy digestion.

If there is any proof wanted to establish the theory that a horse that cribs is a diseased horse, I will refer you to a stallion that was a cribber I frequently saw. Many of his colts as they grew up became inveterate cribbers. Now, this goes to show that it is a disease coursing in the system and given off in the act of colition. I also knew a mare that produced a colt that became a cribber before it was 6 months old. I frequently saw mare and colt standing at the fence as I passed along the road cribbing as if they were in dead earnest to see which could beat, and on turning them away from the fence they would at once return to the act with renewed vigor.

Hence a horse that cribs is an unsound one, and the phenomenon of cribbing is the symptom of that peculiar disease of the brain and nervous system which constitutes the primary unsoundness. The indigestion and flatulence are the effects thereof.—Isaiah Michener, V. S., in Breeder's Gazette.

Pigs Weak In the Loins.

Pigs frequently get in this condition when confined in small pens on hard floors. Place them on a ground floor and reduce the feed until they have regained their strength. Rub the loins with a liniment composed of equal parts of oil of turpentine, strong aqua ammonia and sweet or linseed oil well shaken together. —F. L. K. in Rural New Yorker.

Live Stock Points.

Put pine tar on the sheep's noses if you see them running with head near the ground and stamping. The fly that produces grubs in the head is about.

Bear in mind that June is the month to breed for fall pigs.

There is nothing a hog likes better in the fall than a good, juicy pumpkin. Plant a lot of them. Hogs will bring a good price next winter. Cows delight in pumpkins too. The old fashioned way of planting corn is a good one.

Think of the poor chickens and turkeys when the scorching hot weather comes. If you have no peach or plum trees or trees of any kind to shade them, plant sunflower seeds and castor bean seeds where the broad leaves will keep the sun off the poultry.

Those who are going to plant rape seed this spring for sheep must not forget the unfortunate mistake of last year whereby bushels of birdseed were sown in the west by farmers who thought they were raising the other kind to feed their sheep on. Be sure you get the right kind this year. The seed cannot be sown in most parts of the country before the middle of June.

It has been suggested that a good way to grade honey for market so that all will understand is to divide the different lots according to color and call them "white," "amber" and "dark."

The rape plant can be fed to cows as well as sheep, but unless care is used it will taint milk.

It is possible to make an animal fat and plump upon corn and cornmeal and starve it to death for want of nitrogenous food at the same time.

There is money in horse breeding, even with race horses. Twenty years ago William Mulkey of Kansas City bought Chiquita for \$1,000. That was the foundation of his stables, and he is now a wealthy man. But you must have sense and judgment enough to make your fortune in anything else or you will fail at horse racing and race horse breeding.

Mr. H. C. Ezell of Tennessee recently sold one jack and three jennets for \$2,000 to go to Virginia, one jack to Illinois for \$600 and one 2-year-old to Springfield, Tenn., at \$750.

AMONG THE GEMS.

Sunstone is only a variety of aventurine feldspar.

The tourmaline becomes strongly electric by friction.

The black diamond is so hard that it cannot be polished.

Purple, green and blue tourmalines are found in Brazil.

The pearl is only carbonate of lime, is readily affected by acids and burns into lime.

The Orloff diamond is now set in the Russian scepter just under the eagle on the top.

The coloring matter of the emerald is derived from the fossil remains of animal life.

Ancient and modern engraved sapphires are very numerous and extremely valuable.

The turquoise was regarded by the Mexicans as a magic stone and was worn as an amulet.

The Austrian government has a Hungarian opal 3½ inches long and 2½ thick. It weighs 17 ounces and is worth \$300.

The color of the turquoise varies from pea green to greenish blue and almost black blue. The best color is a clear sky blue.

The late Dom Pedro had the largest aquamarine ever known. It was said in size and shape to approximate a calf's head.

Coral, often used in jewelry, is an insect product. The best specimens are found in the Mediterranean sea and Indian ocean.

The most famous opal of history was that worn by the Roman Senator Nonius Antonius tried to buy it as a present to Cleopatra, but Nonius refused to sell. It was buried in his tomb, where it was found in the present century.—St. Louis Globe-Democrat.

FASHION'S FANCIES.

To women who cannot wear the very full cape or series of capes that fashion so favors the "bell cape," as it is called, often proves becoming.

Fashionable modistes are just now making great use of oriental broche satins for bias skirt borders and handsome dresses; also for vests, revers and cape linings.

The silk linings of old evening toilets can be cleaned with very weak camphor and ammonia water or gasoline and fashioned into pretty petticoats for summer wear beneath light gowns.

Among summer dust cloaks are circular styles that envelop the whole figure, made of changeable and striped glories, or lustrous shot mohairs, or of twilled surah, plain or changeable.

Some of the rich brocade skirts are wholly untrimmed, and in making up these handsome skirts the silk lining and crinoline are cut in breadth exactly like the outside, seamed up together and then silk faced.

The India silks, with black ground sprinkled with white flowers and white grounds with all over arabesque designs, will be equally fashionable with shot effects in black and white, plain or with the changeable ground dotted with black.

Sleeves differing in fabric from the dress continue to be favored, velvet still retaining its hold, being associated with light wools like crepon, veiling, clairette, etc., and also with the more substantial camel's hair fabrics, wool bengalines, serges and the like.—New York Evening Post.

ANIMAL LIFE.

A house dog often takes a cold in an eye from lying close to a door where he seeks the cool air.

A horse on the farm of N. J. Bell in the Bellefonte valley, Pennsylvania, is said to be 40 years old.

A bit of glass, sharp gravel or wild oat can lame a dog's foot, and if a wound caused by any of these articles is not attended to permanent lameness may set in.

To escape from dangers which menace them starfishes commit suicide. This instinct of self destruction is found only in the highest and lowest scales of animal life.

Falcons are being trained in Russia to take the place of carrier pigeons for dispatch carrying in wartime. Not only are these birds swifter than the pigeons but they can resist bad weather better.

The horned toad is considered a harmless animal, but its ire is aroused when the house cat attempts overtures, and it manifests its feelings by squirting two small streams of blood from the gleaming eyes.

NOVELTIES.

Silver bowls of all sorts are now used for flowers.

There is a new silver umbrella clasp recently introduced.

Three minute glasses in silver standards come about with the egg eating season.

Dresden china handles and round knobs of colored stones are prominent among the new designs in use for umbrella sticks.

Old silver decanter stands which used to be called cruises, or, as we call them now, casters, are used for flowers. In the passing of the casters the old fashioned silver bottoms are also utilized.—Jewelers' Circular.

ODDS AND ENDS.

The number of Russian convicts sent to Siberia averages 700 a month.

The state of Massachusetts is said to have the most valuable records of any state in the Union.

Paris has an insurance company that refuses to issue policies on the lives of any people who use hair dye.

Four thousand new post offices were established during the past year; 557,646 unavailable letters poured in the boxes, 32,612 of them wholly without any outside sign, symbol or address.

THE COFFEY HOUSE

A First-Class Saloon

And BILLIARD and POOL ROOMS attached
37-41 JOSEPH COFFEY.

DANKS

THE JEWELER,

Articles to Suit the Most Fastidious. A complete line of

Watches,

Clocks

Jewelry

And SILVERWARE.

Complicated Watch Repairs and Artistic Engraving a Specialty.

All goods sold engraved free of charge.

• Your patronage respectfully solicited.

CABRIEL.

Dark iron gray jack, 15½ hands high, bred by Wm. Hubble, sired by an imported jack, dam by an imported jennet. Owing to the losses of the season I will stand at very low terms at the Wm. Hayes place, 2 miles from Stanford.

At \$5 to Insure a Living Colt.

Mares traded or parted with forfeits insurance. Rates on reasonable terms; not responsible for accidents.

TILFORD MESSER.

• Dick Elmore, Jr., 1st dam was by Medoc; 2d by Asterus, by Imp. Diamond.

Will make the present season of 1893 at my place 3½ miles from Hustonville, on the Hustonville and Bradfordsville Turnpike.

At \$10 to Insure a Living Colt.

Dick Elmore, Jr., has proved himself a fine breeder.

I will retain on colt for season money. Money due if mare is parted with or bred to another horse.

RICHARD DOWNEY, Ellensburg, Casey Co., Ky.

At \$15 to Insure a Living Colt.

JOE E. FARRIS, Stanford, Ky.

ROYAL KING.

Foaled 1890. Red bay, 16 hands high. Full brother to Silver King, Gold King, Silver Queen and the great show mare, Allie G.

By On Time. 1st dam Mollie Mountz.

Silver King was burned in Rue's stable when 5 years old; sired more good saddle horses than any horse in Kentucky at the same age. Gold King was bred to two mares at 2 years old, and got two colts—no better in this country; see Sam Harris and Billy Murphy. Silver Queen, shown by Bill Rue, was a great winner. Allie G., educated by Nels Rowland, was hard to down. Her present owner refused to \$250 for her.

Royal King will serve fifteen mares at my stable, near Pine Cottage.

At \$20 to Insure a Living Colt.

JOE E. FARRIS, Stanford, Ky.

VICTOR : HUGO.

This fine young stallion will make the season of 1893 at

SEMI-WEEKLY INTERIOR JOURNAL

SCREAMER

A mahogany bay, black mane and tail, 16 hands high. Fine saddle stallion, foaled May 15, 1888.

Sired by the well known saddle stallion Screamer, he has a number of colts.

Second dam by a Second Gill, 3d dam by Logan's Gill, 3d dam by Gill's Vermont.

Old Screamer in his day and time was a fine show horse and has produced a few lot saddle horses.

He is now a good sire, a few colts and yearlings.

Break Wilkes will make the season of 1893 at our place, 2½ miles from Stanford on the Rush Branch pike.

At \$8 to Insure a Living Colt.

I will at the same time and place stand my 5 year-old jack.

JEB EMBRY

At \$8 for a mare and \$6 for a horse, to insure a living colt money due on all seasons when colts come. If mares are traded off or removed from the neighborhood without satisfying me that they are not in season, season becomes due. Lien retained on colts till money is paid. Address

C. M. SPOONAMORE,

Rowland, Ky.

CENTRAL PARK, DANVILLE

GAMBONITO 8419.

Race record 2:24 1/2 sth heat. Foaled 1887. Black

Horse, 16 hands.

Sired by GAMBETTA WILKES.

(Sire 2:14 in 10 at 2 years.)

dam Maud by Gold Chief (sire of Basil Duke 2:24 1/2; dam of the dam of Don Pizzaro (2:24 1/2; Don Lorenzo (2:21 1/2; Little Lowrie (2:21 1/2; Galena (2:21 1/2) by Mambrino Chief, 3d dam Nelly, son of Billy Hodge, by Corbeau, sire of 6 producing dams.

3d dam by Heslop, 3d dam by Houghburgh.

In offering Gambonito's services we believe that we give in him the BEST INDIVIDUAL, the BEST GAITED, REST TEMPERED, and as GOOD A RACE HORSE as lives. He has proven himself an excellent breeder. The first colt of his get was handled last season at a year old, and was a good show horse in the seasons, and was then turned out until fall, and handled about a month and could trot quarters late in the fall in 39 seconds.

We make the price for his services so anybody can breed him to, to insure, or to 49 in the season, extra time of service.

We will handle several of his get this season. We invite you to call and see Gambonito and his produce. Care to prevent accident, but not responsible should any occur. Mares kept at reasonable rates.

We will handle trotters and sashers at reasonable rates. For further particulars call on or address WM. M. RUE & SON, Danville, Ky.

ONWARD MESSENGER.

Standard. Bred by Charles Dunn.

SIRED BY ONWARD CHIEF 4495.

By Onward 1411, record 2:25, sire of 49 in 230 list, also 17 producing sons and 16 producing daughters.

1st dam Lady Messenger, by Hutchinson's Chief 12420; 2d dam Eliza Jane, (dam of Maud Messenger 2:16, Merit 2:37) by Gentle Breeze 3456, sire of Pearl 2:30, etc.; 3d dam Kitty Rivers, dam of Bertie Girl 2:37, dam of Almont, sire of Belmont, etc.; 4th dam by Red Jacket, sire of the dam of Kentucky Wilkes 2:21, Madison Wilkes 2:28 and grandam of Red Wilkes, So So 2:17, Lizzie Wilkes 2:22, etc.

Bay horse, heavy mane and tail, with size, style and finish, and representing some of the best trotting families in the whole country. Should make a great stock horse. Will make a short season at our stable 2½ miles west of Stanford, at

\$12.50 to Insure a Mare in Foal.

At same place a

LARGE MULE JACK,

At \$10 to insure

J. A. & S. T. HARRIS,

Stanford, Ky.

WEDGEWOOD 436.

This fine saddle stallion will make the season of 1893 at my stable one mile west of McCormick's Church on the Knob Lick, McCormick's Church and Turnersville turnpike road, Lincoln Co., Ky.

\$3 the Season, or \$10 to Insure a Living Colt Four Months Old.

Colts standing good until season money is paid, mares parted with or removed from Co., forfeits insurance money. Description and pedigree, insurance money, etc., to be paid before colt is sold, and tail, very smooth, even turned horse an' all the fancy saddle gait which he transmits in great uniformity. He was sired by Second Jewel 48, he by Jewel Denmark (Cunningham 70), by old Tom Hal and out of a Copper team.

1st dam Lilie Denmark sired by old Stonewall Jackson 72, he by old Washington Denmark 64, dam Crusader, ad dam was sired by Rife's Glencoe, he by 1st senece dam of Stonewall Jackson, 1st dam by the great old Tom Hal and out of a Copper team.

Raising the great demand for a fast class saddle stallion I have taken great pains to cross this horse and I respectfully invite the inspection and patronage of every one wishing to buy a horse to the best popular and fashionable families of his class, as he crosses back to the acknowledged foundation saddle stallions.

Mares kept any way on liberal terms, but not responsible for any accidents should any occur.

J. M. CARTER, JR.,

Shelby City, Ky.

SILVER TIP 169.

This handsome saddle stallion will make the season of 1893 at the stable of Beasley Bros., one mile west of Stanford on the Hustonville turnpike, etc.

At \$15 to Insure a Living Colt.

Money due when colt is foaled or mare parted with, moved out of the county or bred to another horse. Pasturage furnished mares from a distance at \$2 per month. Due care will be taken to prevent accidents and escapes, but in no event will we be responsible.

Pearl's Silver Tip was sired by Silver King, he by On Time, he by Stonewall Jackson.

First dam by Skedaddle, by Oliver, son of Wagner; second dam by Red Devil, by Taylor, son of Captain's Little Devil, son of Blood's Black Hawk, 3d dam Young America, son of Taylor's Messenger; Skedaddle's 1st dam by Medoc, 2d dam Trumpeter, 3d dam Aratus.

Description—Silver Tip was foaled May 5, 1888, is a beautiful bay, 15½ hands high, fine mane and tail, very perfect.

We claim this young stallion that he has more natural style and action than any stallion in the country, in a word, he is a model in form and as a saddle horse.

In addition to this stallion's saddle qualities, he has a bold, open trot, which combines with a steady gait, and is a true of high class combined horse.

We highly recommend him as a fine breeder, as this will be his third season and his colts will compare favorably with the get of any horse in the country.

BEASLEY BROS. W. H. HAYS

BREEZE : WILKES.

STANDARD.

Bay stallion 15½ hands high, foaled 1887; sired by Petoskey, sire King Tokey 2:15; Mary Lou 2:19 1/2; Mrs. O'Neill 2:22 1/2; Dorcas Martin 2:17; at 2 years-old; Guy Wilkes 2:15 1/2 with three year-olds with records under 2:20, Petoskey's 1st dam, Fannie by Iron Cadmus; 2d dam Cadmus by American Eclipse; 3d dam by Brown's Bell; Messenger 2:15 1/2; 2d dam, Kitee Rivers, by Alexander's Abdallah, son of Goldsmith Maid record 2:14; 3d dam Red Jacket, etc.

Break Wilkes will make the season of 1893 at my place, 2½ miles from Stanford on the Rush Branch pike.

\$15 to Insure a Living Colt.

If mares I part with money is due. Lein on colt until money is paid.

CHARLES DUNN.

T. L. BAUGHMAN. J. S. BAUGHMAN.

SEMI-WEEKLY INTERIOR JOURNAL

STANFORD, KY., - MAY 19, 1893

W. P. WALTON.**EIGHT : PAGES.**
EVERY FRIDAY.

The Geary Chinese exclusion act, which the Supreme Court has just pronounced constitutional, is giving the statesmen much trouble and the general opinion is, to use a classic expression, that our government has bitten off more than it can masticate. The law provides that all the Chinese in this country, who wish to remain, must register by a certain day this month, now passed, and be photographed. Of the 116,000 almond-eyed heathens "in our midst," only about 2,000 complied with the law and now the question arises, what is going to be done with the other 114,000? The law says that unless they register they shall be subject to a fine and imprisonment for one year, after which they are to be deported from the country. There are not enough jails in the United States to hold them, no appropriation for their support if there were, and it would take \$6,000,000 to deport them, whereas only \$16,000 are available. In the meantime, the threats are coming across the sea from localities in China that if any oppressive measures are resorted to with their countrymen, they will retaliate by killing every American missionary and other residents there. It begins to look like the United States are (we believe) that the Supreme Court has decided that we must use the plural verb) in the middle of a very bad fix, occupying, as it were, that narrow strip of land between the devil and the deep blue sea. China is somewhat larger than Chile and much better prepared to prosecute the war which may result from this complication of affairs.

A DISPATCH from Washington relates that after Mr. Cleveland had apparently determined to give the Berlin consulate to Editor Myrick some enemy sent the president a copy of his paper, in which before the nomination the man of destiny had been referred to as a mugwump and a republican on all questions except the tariff. So when Speaker Crisp, who was acting as god-father for the editor, called to learn whether the appointment would be made, Mr. Cleveland quietly informed him that his man was persona non grata to him as any one would be who alludes to him in that way. This leaves Brer. Henry Watters in the cold and leaves Brer. Fox, of the Junction City Times, to continue out in the wet, with no prospect of eating pie at the democratic feast. Don't you wish you had have listened to us last year, Brer. Fox, and not have blown your buzzards so painfully out of tune with the times and conditions?

It is rare that a suit for breach of promise of marriage is brought and won after the death of the woman in the case but a jury in Nicholas county has just awarded the administrator of Gertrude Schwartz \$5,000 of the \$10,000 claimed against Charles W. Ball. The case was like this: Charley and Gertrude grew up from childhood together and were regarded as sweethearts, destined some day to marry. But Ball proved a villain and Gertrude demonstrated the folly of loving not wisely but too well. Last January, without having become a wife, she died in giving birth to twins. Ball spurned all propositions to make any sort of reparation and the girl's administrator brought suit with the result as stated. The defendant should thank his stars that he got off so easily. A coat of tar and feathers and a long term in the penitentiary ought to be the certain penalty of that; meaneest of crimes—seduction.

The women who advocate short skirts and no corsets are in convention at Chicago and are having a monkey and parrot time. Those who practice what they preach and wear skirts which fail to come to the ground by 18 inches and look otherwise like a bag of wool without the string tied in the middle, do not present a very picturesque appearance, though they are the cynosure of all eyes and the street gamins follow them around like a band wagon. Short skirts may do well enough in some cases, Pauline Markham's, for instance, before she broke one, but the average female form is not near so divinely appearing when undressed by the other very necessary and becoming article.

YOUNG couples and others, who have had their bond of union cemented by an heir or heiress and who are thinking of going to the World's Fair, will learn with delight that a building has just been completed in which for 50 cents each and upwards, according to attention, they can have their babies checked, while they take in the sights. This will be much cheaper than taking a nurse, even if the statement is added that there is no reduction for job lots.

The General Assembly will not adjourn June 16 or any other time till the act of limitation applies. The Senate refused to adopt the resolution for an adjournment on the day named and again the hope of the tax payer goes glimmering.

Two persons have been lynched in Indiana this week and the Hoosier State is north of the Ohio river, too. The goody-goody Yankee papers used to say that such outrages occurred only in the savage South, but it seems that even the civilized Northern people proceed to corroborate themselves in an unlawful manner when they get so bad that legal restraints go for naught. We may be a little more hot-blooded in the South, but human nature is the same everywhere, and when people think that certain crimes need summary punishment, they usually take the matter in their own hands, without regard to locality.

The directors of the World's Fair are determined to open the buildings on Sundays and if they will return the \$5,000,000 loaned by the government as they have resolved, it is to be hoped they will succeed. The question is to be submitted to the National commission for its concurrence and if it is obtained, the buildings will be opened on the first day of the week, commonly called Sunday, but with the machinery stopped and with religious services on the grounds and sacred music in the choral halls.

PROF. KOCU seems to be as much of a fraud in private life as he is in the medical world. After getting all the notoriety he could out of his alleged consumption cure and having fallen into innocuous desuetude, he again emerged from obscurity as defendant in a divorce suit, which his wife readily secured. Now he is getting himself talked about by his attention to an actress, whom, it is said, he is shortly to marry. The doctor seems to be a b. e.

THERE is one editor at least in Kentucky, who appreciates the INTERIOR JOURNAL, and he is the genius who presides over the Shelbyville News. He uses its editorials intact for its own, getting, of course, in the rush of business, to append the usual credit. It is all right, however. We are always glad to help our friends, even if they do not care to acknowledge the assistance rendered.

In order to see if the Legislature means business with regard to moving the State capital, Senator Breckinridge has offered a joint resolution that it is the sense of the body that the capital shall be removed and will demand an immediate vote on it. The agitators will now have to vote up or shut up and let us have a rest on the question, which has become very tiresome.

ARBITRATION has settled the differences between the Memphis newspaper men, Carmack and Collier. They ought to have thought of that before they made such asses of themselves.

The Louisville Commercial's Columbian edition of 24 pages is a very valuable addition to the history of Louisville and a highly creditable issue in every way.

The whisky trust has reduced the price of the article one cent a gallon. Let the prohibitionists be thankful even for small favors.

NEWSY NOTES.

—W. H. Pugh, of Ohio, has been appointed commissioner of customs.

—Arthur Poor was convicted at Harrodsburg of raping his blind and crippled sister and left off with 10 years in the penitentiary.

—As each shot from the Krupp gun at Chicago will cost \$1,200, the noise of a discharge will not reverberate through the buildings often.

—Warner Briscoe and Fred Stein were drowned at Louisville by the upsetting of their boat. John Feland, Jr., succeeded in swimming ashore.

—During Sam Jones' stay in Owensboro one of the saloons advertised to give "One hard-boiled egg and a photograph of Sam Jones with every drink."

—John Turley, the murderer of the Ohio & Mississippi railroad conductor, Lew Price, was taken from the jail at Bedford, Ind., and hanged to a tree.

—Theodore Thomas, who seems to have outgrown his pantaloons, has been bounced from the directorship of music at the World's Fair by a vote of 38 to 29.

—The decision of the Supreme Court in the "hat trimmings case" involves from \$8,000,000 to \$30,000,000, which will have to be refunded by the government.

—The Supreme Court of the United States affirmed the constitutionality of the Geary Chinese exclusion and registration act, but the Chinese moved for a rehearing.

—Samuel Roads, Jr., of Massachusetts, Gov. Russell's private secretary, has been appointed chief of the stationery division of the treasury in place of Sturtevant, whose removal caused such a howl among the reformers.

—Frank Almy, the fiend who murdered Christie Warden at Hanover, N. H., July 17, 1891, because she would not marry him, has at last paid the penalty with his life. The execution was a bungling job. The rope was so long it allowed the victim's feet to touch the floor and he was slowly strangled to death.

—Four life savers were drowned in the lake at Cleveland Wednesday while attempting to rescue two men who had been swept out into the lake. At Conneaut a dredge capsized and five men were drowned. At Ashtabula the schooner Pelican foundered and three of the crew were lost. Great floods raged in that portion of Ohio.

DANVILLE.

—Quarterly meeting will be held at the Walnut street Methodist church Saturday and Sunday.

—License for the marriage of Miss Liy Best, of Junction City, and Mr. Hugh Vanarsdall, of Mercer county, was issued by the county clerk Tuesday evening.

—Arthur, the 3 year-old son of Mr. H. W. French, died Wednesday evening of croup, which attacked him while very ill of mumps and roseola.

—A bright little boy 23 months old, a son of Mr. E. J. Meeks, who is employed at the Singer sewing machine office, died Tuesday evening of tubercular meningitis.

—Roy, a 6 year-old son of Mrs. Eddie Latimer, of Parksville, fell about 7 feet and fractured his skull a few days ago. It is thought he will recover, though he is very ill.

—John Robards is now sole proprietor of the Fourth street livery stable, having bought the interest of A. T. Hutchings at Special Commissioner C. R. McDowell's sale Monday.

—Mrs. Wm. Silliman and children are visiting Mrs. Eliza Coomer, at Bloomington, Ill. Mr. N. H. Woodcock and family have gone to housekeeping in the brick house on 4th street lately occupied by E. W. Lillard.

—City Judge Alex Anderson has been holding quarterly court this week, because of Judge McFerran's illness. The fellows who win cases are highly delighted with his rulings and decisions, while those who lose are correspondingly dissatisfied.

—Mr. and Mrs. H. S. Ervy and their daughter, Mrs. H. L. Fagin, of Colorado Springs, Colo., were in town Thursday on their way to Lincoln county, to visit relatives. Mrs. Ervy was formerly Miss Hickman and was born on the farm in Lincoln owned by R. L. White.

—Evan Burton, an old man who lives near the "Persimmon Orchard" in the knobs, came to town Wednesday and complained that Lee Blevins, a young white man, had drawn a pistol on him and outrageously abused him Tuesday. A warrant was issued for Blevins.

—Elder Wm. Stanley, formerly pastor of the Christian church here, has consented to deliver an address at the cemetery decoration day. Elder Stanley was a Confederate soldier and has long since gotten over the animosities of the civil war. Another speaker, not yet selected, who was in the United States army, will also be present.

—At an enthusiastic meeting of Danville and Boyle county citizens at the court-house Monday evening it was resolved to offer \$250,000 cash and as much land as is necessary for public buildings, to the State of Kentucky if she will locate the Capital here. If given an opportunity the people will surely vote the money, give the land and do everything else necessary to secure the prize.

—Mrs. Richard Cox, who lives near Brumfield, this county, gave birth to a child six weeks ago and had recovered and was going about, when two weeks since she became suddenly and totally blind. Charitable neighbors sent her to Louisville to Dr. Cheatham, the eye specialist, who after thorough examination says her loss of sight is permanent. Her husband is a blind man and is often seen playing the violin on passenger trains from Junction City to Brumfield.

—It will be learned with general regret that Rev. A. J. Brady, for 15 years past rector of the Catholic church here, will in a few days leave Danville, having by his bishop been assigned St. Cecilius church, Louisville. During his residence here Father Brady has endeared himself not only to the people of his own faith but to citizens of all classes, by his upright, Christian life and gentle, unvarying courtesy to every one. There was not a dry eye in St. Paul's Sunday morning when he bade his congregation good bye and asked them to remember him in their prayers. It is not yet known who his successor will be.

—Mitchell Gunn, an old colored man, died suddenly at the home of his son, Henry Gunn, in this place Tuesday evening. He was buried Wednesday in the colored burying ground at what is known as Meauxtown, north-east of Danville. "Uncle Mitch" was born on the farm where he was buried and in early life was a slave of Major Jack Meaux, an old bachelor and the owner of many slaves and much land, and who when he died freed his slaves and willed his land to them. Uncle Mitch at the time of his death still owned some of this land, which will now go his children.

—The 8th annual meeting of the Kentucky Homeopathic Medical Association was held at the Gilcher House Tuesday and Wednesday. Hon. John W. Yerkes welcomed the visitors and Dr. C. P. Merlethib, of Eminence, responded in their behalf. An open session was held Tuesday evening, when, after prayer by Rev. C. F. Hubbard, President M. Dills delivered the annual address. Papers on "Women and Medicine," by Julia Washburn, Lexington; Homeopathy and State Institutions, by A. Leigh Monroe, Louisville, and Homeopathy, Its History and Claims, by Prof. T. M. Stewart, of Cincinnati, were read. The officers for the ensuing year are: President, Henry M. Marsh, M. D., Danville; vice-president, Julia Washburn, M. D., Lexington; secretary, Allison A. Clokey, M. D., Louisville; treasurer, J. T. Bryan, M. D., Shelbyville. The next meeting will be held in Lexington on the 31st Tuesday in May of next year.

—The 8th annual meeting of the Kentucky Homeopathic Medical Association was held at the Gilcher House Tuesday and Wednesday. Hon. John W. Yerkes welcomed the visitors and Dr. C. P. Merlethib, of Eminence, responded in their behalf. An open session was held Tuesday evening, when, after prayer by Rev. C. F. Hubbard, President M. Dills delivered the annual address. Papers on "Women and Medicine," by Julia Washburn, Lexington; Homeopathy and State Institutions, by A. Leigh Monroe, Louisville, and Homeopathy, Its History and Claims, by Prof. T. M. Stewart, of Cincinnati, were read. The officers for the ensuing year are: President, Henry M. Marsh, M. D., Danville; vice-president, Julia Washburn, M. D., Lexington; secretary, Allison A. Clokey, M. D., Louisville; treasurer, J. T. Bryan, M. D., Shelbyville. The next meeting will be held in Lexington on the 31st Tuesday in May of next year.

STANFORD, KY., . . . MAY 19, 1893

E. C. WALTON, Bus. Manager

PERSONAL POINTS.

Mr. J. R. HALLES is clerking for Mr. W. C. Hutchings.

Mrs. WM. WELSH has gone to Pittsburgh, Pa., to visit relatives.

Miss MAMIE BALLARD, of Madison, is with Miss Ella May Saunders.

W. A. TRIBBLE has returned from a professional visit to Knoxville.

Dr. H. M. Grant, of Lancaster, has been visiting his cousin, Dr. A. S. Price.

Mr. JOHN M. McROBERTS, Sr., lies in a stupor and the end is apparently not far off.

Mr. C. C. WILLIAMS, a leading member of the Mt. Vernon bar, was here yesterday.

Mrs. MAGGIE LORD, of Louisville, and little daughter, are boarding at Mrs. B. K. Weare's.

Miss VIRGINIA RAINES, of Rowland, went to Burgin Tuesday to spend a few days with relatives.

Mrs. J. W. McCURDY and Elizabeth arrived from Independence, Mo., Tuesday to visit Mrs. Kate Hayes.

Dr. G. GOLDSTEIN attended the opening of Crab Orchard Springs and says it was a memorable occasion.

Mr. W. M. O'BRYAN, of Owensboro, was here this week visiting friends and looking in the best of health.

Mrs. CECERO REYNOLDS and Misses Etta Gooch and Maggie McKinney, of the McKinney section, made us a pleasant call Tuesday.

Miss MINNIE RUPLEY attended the Women's Missionary Society meeting at Harrodsburg as a delegate from the auxiliary from here.

Mr. PHIL SODEN, the lightning passenger engineer, was here Tuesday on his way to Barbourville, where he is witness in a railroad case.

THE Glasgow Times says that Miss Lizzie Slaymaker, who has been visiting Miss Annie Dickerson, has gone to visit in Munfordville.

Mrs. ANNIE MILLER and Miss Mary Miller, of Mt. Vernon, passed through yesterday to visit the family of Mr. Tom Miller in Garrard.

D. G. SLAUGHTER was on yesterday's train with thousands of his Green Briar Springs circulars, bound for a tour of the State in its interest.

Mr. A. K. DENNY has returned from Washington, satisfied that the fight for collector lays between him and C. H. Rodes, Esq., of Danville.

Mrs. J. P. BAILEY accompanied Miss Louise as far as Lexington, where both will visit friends for a few days, when the latter will go to Grayson.

Mrs. J. CARVER JONES, of Kansas City, arrived with her two children Tuesday and is the guest of her mother, Mrs. Grimes, of the Preachersville neighborhood.

Our reporter was misinformed. Mrs. Mary Bowman and Miss Virginia are at Mr. Forestus Reid's and not at the College. Miss Virginia is taking music lessons at the College, however.

Mr. JOHN S. WALLS, who by his unassuming manners and gentlemanly deportment, has made more friends than anybody during his several years' stay in Stanford, left Wednesday to go into the drug business at Tampa, Fla., after a short visit to the World's Fair. He disliked to leave Stanford almost as much as his friends hated to see him go, but a very advantageous offer, coupled with the fact that he can be near to his parents, who are getting old, made him tear himself away from happy surroundings and pleasant associations.

CITY AND VICINITY.

PLANTS FOR SALE.—Tomatoes and cabbage. O. J. Newland.

FINE line of new clocks at rock bottom prices. Danks, jeweler.

REMEMBER that the fair date has been changed to Thursday and Friday, July 27th and 28th.

THE L & N. pay train was here yesterday and left the usual \$12,500 in cash in and around Stanford.

FIVE different sizes Leonard ice chests. Will save you 200 per cent. of your ice bill. W. H. Weare & Co.

An excursion for colored people will be run to Louisville for \$1.50 for the round trip from here Sunday.

MONUMENT.—Mr. J. S. Hocker is having a large and handsome monument erected over the graves of his father and wife.

THE fountain is again hung up. The man who started to lay the circular wall wasn't equal to the job and he was discharged.

BEING associated with no one in business I am prepared for dressmaking at very reasonable prices. Call and get prices. Mrs. W. T. Beard.

MR. J. C. ROEDMER has had his farm at Rowland divided into about 200 lots of 25x100 to 300 feet and will offer them at public sale June 24. This will give a chance to those who wish to build houses in the growing little town, where homes are in great demand.

TAKE your repairs to Danks, Jeweler.*

JESS SO.—The sweet May of our childhood Queen crowning memory has become a sour, somber old mayd.—Covington Commonwealth.

UNDERTAKER HUFFMAN shipped a casket to Livingston yesterday for Mrs. Jas. Flynn, wife of the section boss, who died there of a stomach trouble, aged 22.

PICTURES, PICTURES!—The Rowland Library is in motion and playing a land office business. Come one, come all. Satisfaction guaranteed. Frank Corder.

You can go to Cincinnati next Sunday via the Q. & C. for \$1.75 from Junction City and return and see the great game of ball between the St. Louis and Cincinnati.

TWO killings in Casey county in a week, one of a brother-in-law and the other of a brother, show that certain families down there are anxious to exterminate each other.

LICENSE.—Mr. and Mrs. S. Vanderpool having removed the causes that made Judge Varnon object to granting them license to sell liquor at Crab Orchard, the document was issued yesterday.

ANOTHER plank fence is being placed on the north and east sides of Court Square. A rich country like this might enclose its property with a handsome iron fence. It would be cheaper in the long run.

THE manager of the Opera House confesses to have been "picked up" on the size of the Blondell & Conkling Co., but they gave pretty fair performances and pleased the crowd, judging by the largely increased attendance of the second night.

A MAN named Phillips hit a fireman at Corbin in the forehead with a pair of brass knucks, perhaps fatally injuring him, and escaped to Rowland, where Sheriff Menefee arrested him Wednesday night. He was placed in jail and yesterday Deputy Menefee took him to Williamsburg.

"And spring would be but gloomy weather if we had nothing else but" such a spring as this. Another cold wave came upon us like a thief in the night and before we could get our winter clothing and stoves in order, some of us came near feeling like we were freezing to death. A light frost showed yesterday, but the weather began to moderate during the day and if it keeps on we may be happy yet.

FIVE.—Commonwealth's Attorney J. S. Owsley, Jr., was up from the Mercer court yesterday. He says he has already sent five to the penitentiary from there for terms ranging from one to 10 years, and will have another batch before the term closes. The jury in the case of H. C. Passmore, who killed Richard Paxton for building a fence that shut off the back entrance to his saloon, hung 9 for conviction and 3 for acquittal. This was the third hung jury in the case.

THE other day Nick Vanhook, Baker and Holman, from Junction City, came up here and filled up with booze. By the time they were ready to leave they had gotten quite hilarious and when they reached the toll gate on the Millidgeville pike they were firing their pistols like crazy Comanches. They "ran" the toll gate, kept by the wife of Constable Benedict, and when that officer heard of it he had warrants issued for the men, who were brought here and tried. Judge Varnon fined each \$10, which they paid, glad to get off so easily.

SUICIDE.—Elmer Saunders, a fireman on the K. C., who lived at Rowland for a long time, shot himself to death in a saloon in Covington. The dispatch says that he had been suffering from a fit of melancholy and when his brother came into the saloon and invited him to shake the dice-box for the drinks he started for the rear yard and fired the fatal shot into his brain. "I've been thinking of doing this many a time, good-bye," were his last words to the horrified brother. He was 24 years old and leaves a wife and several children.

ANOTHER man remembers a much colder spell than this. Mr. P. W. Carter, who was marshal at the great picnic held at Buffalo Spring, May 17, 1866, to celebrate the arrival of the first passenger train, says that was the coldest day he ever saw in the merry month of May. A heavy frost killed nearly every living thing and people attended the picnic in overcoats and fought for the best place around the log fires. There is some consolation, even though it be very small, that things are never so bad that they may not be and in point of fact have not been worse.

Snow.—Those who think the present coldest snap that ever came in May should listen to the tale of woe that Mr. John W. Rout can relate. He can remember everything that has happened since he came to this country with old man Columbus and tells us that 39 years ago Tuesday night, the one which was so very cold, eight inches of snow fell and all the corn, most of which was a foot high, was killed as dead as a door nail. He can also relate some other almost as incredible stories, but as this paper emulates the Father of his Country in truthfulness, it will not injure its reputation by giving them even as second-hand.

The fountain is again hung up. The man who started to lay the circular wall wasn't equal to the job and he was discharged.

BEING associated with no one in business I am prepared for dressmaking at very reasonable prices. Call and get prices. Mrs. W. T. Beard.

MR. J. C. ROEDMER has had his farm at Rowland divided into about 200 lots of 25x100 to 300 feet and will offer them at public sale June 24. This will give a chance to those who wish to build houses in the growing little town, where homes are in great demand.

MATRIMONIAL MATTERS.

—Miss Martha McDowell, of Richmond, Ky., will marry Mr. Thos. Hanger, of Staunton, Va., next week.

—Miss Lettie Reid, daughter of Rev. Miles Saunders, of the Presbyterian church, Springfield, will marry Mr. Chas. R. McDowell, of Danville, on the 23d.

—Wm. Bland, of Garrard, and Miss Minnie D. Blackerby, the pretty 19 year old daughter of Mrs. Catherine Blackerby, of this county, were married yesterday.

DEATH'S DOINGS.

—Mr. D. A. and Mrs. Margaret Baugh mourn the loss of their infant child, Colvin, who died a few days ago.

—A. V. du Pont, a wealthy and public-spirited citizen of Louisville, died suddenly of heart disease. He gave the city Central Park and only last week he formally deeded to the city a magnificent training school for boys.

—Little John Murrell, son of Mr. and Mrs. J. B. Foster, died Tuesday morning of brain fever, aged 18 months. He was a bright little fellow, the idol of the household, and his death creates an aching void in the hearts of his sorrowing parents, who are reminded that the Savior hath said "of such is the Kingdom of Heaven." After a short service Wednesday, the little body was laid away in Buffalo Cemetery.

—A message from Mr. J. A. Carpenter conveys the sad intelligence of the sudden death of Mr. Tom Guthrie, at Rugby Road, Tenn., where he was agent and operator of the Q. & C. He leaves a wife and three children, the youngest but three weeks old. His remains were interred at Sunbright, Tenn., where his wife was raised. Mr. Guthrie was born in Boyle county and will be kindly remembered here, where he was assistant agent for a long time. He carried life insurance sufficient to leave his family in fair circumstances.

CHURCH AFFAIRS.

—Rev. H. C. Morrison's meeting at Chistiania had resulted in 23 additions to last accounts.

—Elder J. S. Sweeney, of Paris, one of the most noted ministers of the Christian church, is holding a revival at Somerset.

—Rev. R. H. Caldwell will not fill his appointment at Walnut Flat Sunday, as he is attending the General Assembly at Little Rock.

—The officers of the American Sabbath Union, which claims to represent 20,000,000 Christians, have telegraphed to President Cleveland requesting him to take steps to prevent the proposed opening of the World's Fair on Sunday.

—The Women's Missionary Society of the Kentucky Conference M. E. C. S., held a five days' session at Harrodsburg, with 100 delegates in attendance. Mrs. S. C. Trueheart was among those who read papers. In the last ten years the Society has raised and expended over \$700,000 for mission work.

—Rev. George O. Barnes writes Mrs. W. G. Welch that he will arrive with his family to-day and preach at 8 o'clock Sunday night. The meeting may be indefinitely continued, with services only once a day, Mr. Barnes having decided hereafter to preach but once daily.

—The Climax says Rev. Ashby Jones will be ordained to the Baptist ministry at Republican church, Madison county, Sunday, his brother, Rev. Carter Helm Jones of Louisville, preaching the ordination sermon. They are sons of Rev. J. William Jones, who was on Stonewall Jackson's staff.

—The religious work inaugurated by Sam Jones and George Stuart is being continued with wonderful success by the home ministers. Over 100 persons have joined the different churches during the past week and there is every indication that this week will be as fruitful of good results.—Owensboro Inquirer.

—Dr. Grant, the dentist, will be at Mt. Vernon circuit court.

—Judge Pleas. Carter is preparing to build a handsome residence in town.

—Mrs. John Flynn died of septic fever at Livingston Thursday morning.

—Mr. Adam Towry, one of the oldest citizens of the county, died on the 15th.

—All kinds of business as well as farm work has been greatly delayed by the backward spring.

—Much interest is being manifested in the county roads and their condition will be considerably improved this summer.

—Ben Harrison, the little 4 year-old son of Mr. Jas. Jones, was badly scalded last Wednesday. A leg of the stove slipped out and the stove upsetting, hot water, etc., were precipitated over the little fellow's body.

—Miss Angie Clark and Miss Rika Baker are visiting relatives in Lexington. Mr. W. J. Newcomb will look after the Richmond telegraph office for the next two weeks. Mr. Charles Higgins was with us Wednesday.

—The question now agitating the people of this community is: "Shall we have a college?" I am almost ashamed to publish the fact to the world that in this progressive age a county seat the size of Mt. Vernon of the famous State of Kentucky has no college building. An excellent private school has been in session here for several years. The people such encouragement as their plethoric purses can give to assure its success. Only the sum of \$1,150 has been sub-

scribed so far, but this with \$1,200 from the sale of public lands will start the ball rolling and in a few months we trust we shall see the building nearing completion on the beautiful lot which Mr. Jas. White has donated to it.

—The county have awakened to the importance of bestowing upon their children that greatest of all gifts, a good education. Then why not unite at once in this undertaking and push it speedily to completion? There are men of wealth in our town and county, who should give liberally to the college fund. They could have no more enduring monument to their memory and it takes just

—Dr. Prentiss Meade, of Carrollton, who represented his county in the last legislature and was a candidate for Senator in the next, is said to have entirely lost his mind.

—Delinquent tax payers of 1891 will be sued by Middlesboro city council. The amount outstanding is \$15,000. The bonded city debt is \$150,000, the floating debt about \$65,000. So it will be seen that something has to be done.

NEW ADVERTISEMENTS.

COME to SEE ME.

Having purchased the

Grocery : Business

Of J. W. Ramsey. I am increasing the stock as fast as possible and will soon have it

Complete in Every Particular.

SELECTIONS

GRASSHOPPERS IN CHINA.

No Numerous That Soldiers Have Been Overrun Out to Fight Them.

The great province of Kiang-Soo is being devastated by locusts. Consul Jones at Chin-Kiang, sends the state department an account of the curious efforts made by the afflicted sections to dispel the scourge. Some of the methods resorted to are as striking as the suggestions offered to the Kansas people when they were suffering from a similar visitation some years ago.

"I know of few sights," writes the consul, "more extraordinary than a swarm engaged in pairing. The air is filled with clouds of locusts drifting, circling, crossing and recrossing, with a faint, whirring noise, and settling on the ground in thousands of couples. The ground is carpeted thickly with them. You cannot make a step without crunching heaps of them under your feet, while thousands more start up in patterning volleys against your legs, hands and face."

The eggs are deposited in holes drilled by the female an inch or more deep in the ground. The time required for hatching depends entirely on the temperature. In very hot weather the new brood begins to make its appearance at the end of a week. At this stage they are very small, black and as active as fleas, making extraordinary bounds by means of their muscular hind legs. At a little distance they suggest the idea of a swarm of black ants seized with sudden insanity. In shape they are exact copies of their parents, save for the wings. They are greedy feeders and grow rapidly. By the eighth or ninth day wings have budded, and the color begins to change, yellow spots appearing, and in about three weeks or a month they are full grown.

The destruction by suitable measures of this formidable pest, involving as it does the prevention of famine, fever epidemics and riots, is a matter of grave public concern. One constantly hears of mandarins losing their buttons and being disgraced as the penalty of remissness or failure to destroy the enemy.

Consul Jones says the Chinese consider that the visitation of the locusts is a "calamity from heaven, and that there is no help for it." Chinese records chronicle many instances of the appearance and the calamities inflicted by the locusts in former times, but they have no peculiarly effective methods of destroying them. The government usually issues proclamations ordering out the soldiers and encouraging the farmers to destroy them. The latter are given a bounty for their destruction.

The soldiers are used against the locusts, with their officers at their head, as against an adverse army in the field. Instead of a gun or a lance, however, each soldier is armed with a coarse hempen bag, attached to a bamboo pole, which, with wide open mouth, is waved back and forth among the swarms until filled, when they are killed, and the action renewed.

"In this section of the province," writes Mr. Jones, "the army has taken the field, and the district magistrate has taken up his quarters in the country where the locusts are thickest to overlook the work of destruction and to pay the farmers their bounty.

The farmers use large brooms made of bamboo twigs and other bushes, and each armed with this weapon goes forth to slaughter. When killed and collected, they are paid for by weight, which is at the rate of 40 cash, or 4 cents, per pound. The locusts' eggs are dug up and paid for on a similar scale."—Washington Leader.

Queer Things at the World's Fair.

Certainly the promoters of the Chicago World's fair deserve some credit for the thoroughness with which they are carrying out their original conception. It was proposed, we believe, to make an exhibition of every phase of human life, of everything that could be created by the hands of man, of every possible art and industry, both ancient and modern. It was not possible to bring over to America the pyramids or Windsor castle, or we have no doubt the exhibition committee would have done so. As it is, they were fain to content themselves with models of the original buildings.

But in the case of more portable objects their ambition has had free scope, and they seemed to have fairly ransacked the whole habitable globe in search of specimens of human enterprise and ingenuity. To such lengths have they carried out their scheme that they have now included in their list of exhibits all the procurable paraphernalia of the burglar and the criminal and have issued a notice to English gamekeepers and land owners inviting them to supply the exhibition with any tools and implements of the poacher's trade that they may have in their possession.—London Spectator.

A Lutheran German Church.

German residents in Paris who belong to the Augsburg confession are to have a handsome new church. It is estimated that out of the 40,000 Teutons in the French capital 25,000 follow the Augsburg rites. There is at present a German Evangelical church in the Rue Chauchat, and also three smaller places, where divine worship is held under difficulties. The new church will therefore be a great boon to those for whom spiritual needs it is intended, and Pastor Friesins, who has initiated the undertaking, deserves the support and sympathy of all his fellow countrymen in Paris for his efforts.

He has gone to Berlin and has seen not only the head of the Augsburg consistory, but has been received by the emperor, who has given him 2,000 marks toward the funds for the construction of the needed edifice. Nearly all the German princes—Catholic as well as Protestant—have sent subscriptions to the good work.—Paris Cor. London Telegraph.

Fossil of a Mammoth Reptile.

That mammoth fossil discovered on the banks of Montezuma creek in Colorado is not a myth. The work of excavation is now going on under the direction of an agent of Yale college, which has secured the remains. The reptile (for so it is classed), judging from its vertebrae, ribs, etc., must have been at least 100 feet long. The ribs measure 18 inches in width. The bones are imbedded in a hillside of coarse sandstone and distributed over a space of 600 feet. Some of them have been taken out weighing a few pounds and others hundreds of pounds. Professor O. C. Marsh of Yale writes as follows:

"Why don't you milk that cow?" she asked, pointing to one in an adjoining lot. "Because she's dry, miss." "Dry?" "Yes, miss. She's been dry for two weeks." "You cruel wretch!" she exclaimed. "Why don't you give her some water?" And the man turned his face to the cow and shook with emotions he could not suppress.—Detroit Free Press.

Cruelty.

It isn't fair to give a Detroit girl away possibly, but truth will out even in a newspaper. Detroit has one among its countless pretty girls who was in the country in February, and one day she happened out toward the cow lot about milking time and was asking the man several questions.

"Why don't you milk that cow?" she asked, pointing to one in an adjoining lot. "Because she's dry, miss." "Dry?" "Yes, miss. She's been dry for two weeks." "You cruel wretch!" she exclaimed. "Why don't you give her some water?" And the man turned his face to the cow and shook with emotions he could not suppress.—Detroit Free Press.

At the Last Moment.

Stage Manager (to amateur villain)—Remember, Mr. Shanks, you conceal yourself in this trunk.

CONCEALED.

—Brooklyn Life.

Pretty Good.

It was on the deck of a London bound steamer, and several passengers were leaning against the railing talking about shooting.

A young man remarked that he had once killed two wild ducks on the wing with one shot. "I suppose it was an accident," he said, "but I'll admit that I take a good deal of credit to myself for being a clever shot."

"That's nothin'," remarked a tall 6-footer as he thrust his hands into his pockets and lazily shifted his position. "Why, one time out in the sand hills I got into a fight with one of them air soughum lappers. It was over a gal, of course. She was in for the winnin' man. Well, as I started to say, we chose positions, aimed, and when the word was given fired. I suppose you would hardly believe it," he added, narrowly eying the last speaker, "but, gentlemen, we was both that air good shots that our bullets met and fell to the ground."

The other members of the group looked at the tall man silently for a moment or two. Then one by one they stole back into the cabin, and the crack sportsman was left to gaze at the waves reflectively.—New York Herald.

A Fair Estimate.

A visitor at Jackson park the other day hunted up the 22,000-pound cheese from Canada, folded his arms and stood regarding it in silence.

"What an enormous amount of raw material and patient labor that immense mass represents," said a bystander.

"Wonderful!" murmured the deeply interested observer. "Wonderful! It would furnish enough lumps of cheese, by George, to go with 2,816,000 cents of eating house pie!"—Chicago Tribune.

Not Convinced.

Male Guest—You must admit one thing, though American women cannot vote, they are well taken care of.

Mrs. Strongmind—They are, are they?

Male Guest—Umm! You never see any bent up old women here.

Mrs. Strongmind—No, when women become too old to be offered seats in street cars, they get straightened out hanging on straps.—Exchange.

Too Familiar.

Fond Mother—I am to understand, then, that you have accepted Mr. Lorry's proposal? He's an excellent match, you know.

Ethel (deurnure)—Oh, yes, mamma!

Fond Mother—Of course he told you he loved you?

Ethel—Oh, dear, no, mamma. I didn't let him get so familiar as that.—Pick Me Up.

That Baby.

Mother (to Johnny just back from a visit to his aunt's)—What was your aunt doing?

Johnny—Minding the baby.

"You should say tending, not minding."

"Huh! You don't know that baby."—Waif.

She Believed Him.

"I play—aw—entirely by eah, you know," said Cholly as he sat down to the piano.

And the maiden, after an attentive look at the auricle next to her, said demurely, "I should judge you to be well qualified to do so."—New York Press.

An Unusual "Full."

Powers—Hello! Out giving the twins an airing, eh? Got your hands full, haven't you?

Towers—Indeed I have, and it is the first instance that I know of where two of a kind made a full hand.—Boston Courier.

Intact.

"Well, Johnnie, are you able to keep your place in your classes?"

Johnnie—Yes, sir. I began at the foot and there's not a single boy been able to take it from me.—Chicago Inter Ocean.

"Many go out for wool,
and return shorn."

STANFORD, KY., - MAY 19, 1893

W. P. WALTON.

Mr. T. E. C. Brinly

Has the following to say about the Electropoise and how it cures after-effects of Lx. Grippe.

Office Brinly, Hiles & Hardy Co., Louisville, Jan. 30, 1893.

Gents While attending the Memphis Fair some months ago, I was attacked with severe pains in my arms and legs, the effects of grippe of last winter. I met your agent here, Mr. Harbett, who is an old friend, and he insisted that I use the Electropoise at his office, which I did with wonderful results. In a short time the pains left me and I concluded to rent a "Poise." When my rental time had expired I bought it, and would not part with it for any consideration. It is certainly a wonderful treatment, and it is more wonderful as to how it does its work, yet it does it. I think it is the duty of every man to make known to the afflicted any thing that will be of any benefit to them, and the Electropoise certainly will.

Very Respectfully,

T. E. C. BRINLY.

Mr. Brinly is one of the oldest and best known plow manufacturers in the country.

The diseases cured by the Electropoise are not confined to any particular class of ailment. By its use oxygen is absorbed through the pores and membranes, adds strength and vigor to the entire system, and will cure any disease where there is vitality to build on and a cure is possible. We invite all to call or write and get full particulars.

DUBOIS & WEBB, Room 10, Norton Block, Northwest corner Fourth and Jefferson Streets, Louisville, Ky.

Falls Branch Jellico Coal Co.,

Miners and shippers of the GENUINE

Original Jellico Coal.

TRY IT. We are the sole agents for Stanford and Rowland. Office corner of Depot street and railroad crossing.

HIGGINS & WATTS.

J. H. HILTON
ROWLAND, KY.

DEALER IN CROCHETIES, HARDWARE,

Boots and Shoes, Cigars and Tobacco, Ohio River Salt for sale. We have a complete line of exchange for goods on market price. I am also agent for the old Reliable Brothers Tobacco and will keep a full line of these goods in stock, and all I ask of the merchants of Stanford and Rowland is to give me their orders and I will put the goods in the houses. Factory prices. Thinking the sensible liberal payment, I am a continuance of same, and remain your obedient servant.

S. H. HILTON.

POSTED.

THE FOUR KENTUCKY SADDLE GAITS:

Pacing Is the Base of All Comfortable Saddle Gaits.

There seems to be some commotion in the turf journals as regards the pacing horse.

For the southern breeder the question of the horse is not the fancy pacer or trotter which can stop the watch at 2:08 or 2:12, but the horse of a general utility type, which will answer the purpose of the farmer who horsebacks to town and the townsmen who is in search of a pleasant afternoon's outing.

The fancy gait is speedy, and at the present stage of development in converting pacers and trotters it is a very happy and pleasant desideratum in the general purpose horse. A pacing horse can be converted into a trotter, and vice versa.

From the pacing instinct we get all the comfortable saddle gaits, and the present prices of trotting breed stock should encourage southern breeders to go into the market and buy mares of that class from which southern saddlers and roadsters can be produced.

The Kentucky saddle horse is the southern saddler, and in addition to the saddle propensities he can be broken to drive kindly and thus make a combination horse.

From an exchange we take the following interesting description of the Kentucky saddle gaits and feel no hesitancy in suggesting that breeders of the south have an eye to the breeding of horses which will compare with the standard of gaits as hereinafter described. The extract which follows is from Reynold's Horse Register. The words are these:

The fox trot is simply a modification of the true trot, and while it is not a true diagonal motion it departs from it simply in the fact that the fore foot touches the ground slightly in advance of the diagonal hind foot. It is perhaps the slowest of the distinctive or artificial saddle gaits, but it is above all others an all day gait, and a horse possessing it to perfection will perhaps make a longer journey from sunrise to sunset under saddle than at any other gait. A horse can travel 75 miles a day at this gait, and at night neither horse nor rider will be seriously tired. The rate of speed is six to seven miles an hour for most horses. The horse when going at this gait should always be ridden with a loose rein, as he generally carries his head low.
